**Comments:**

Some career fields require our graduates to obtain a professional license or certification for employment. In compliance with the U.S. Department of Education, following guidance from the National Council for State Authorization Reciprocity Agreements (NC-SARA), DMACC Nursing provides information on programs that lead toward a professional license and certification. Each state may have separate approval processes for professional licenses and certifications. Therefore, some states may not recognize DMACC's program the same way.

Students who plan to obtain professional licenses or certifications within a state or territory which is not within Iowa, it is recommended that students become familiar with the requirements within the state or territory in which you reside. DMACC recommends that students monitor the requirements frequently as those states can or alter those requirements.

The information above does not guarantee that the state's licensure or certification entity will approve or deny an application. In states or territories in which DMACC cannot confirm if the requirements are not satisfied, the program may meet or satisfy various portions of the requirements. Please contact those agencies to directly confirm what is additional needed to obtain the license or certification.
