Good afternoon colleagues,

Hopefully by now you've heard that DMACC has made a commitment to move from Blackboard as our institutional Learning Management System to Instructure – Canvas (please see attachment). This will happen all at once in the Fall of 2023 (i.e., no pilot/early adopters). We are in the preliminary stages of configuring the system and setting up the Banner to Canvas integration for users, courses, and enrollments.

We hope that, once things are finalized, you will be able to gain access to Canvas and complete some training materials as well as start learning how the system works in early spring 2023. This spring we will also be working with a third party to roll current fall courses (202301) over to Canvas. You will then be able to work on that course shell and make changes/update to match what you'll teach for fall of next year.

Keep an eye on your email over the next couple months for more about the transition, where we stand with system setup, and training options.

Please feel free to reach out with questions and understand that we're still working on the initial setup.

Thank you,
DMACC Online
