

DMACC ASSOCIATE DEGREE NURSING Accelerated Program Option

ASSOCIATE DEGREE NURSING Associate in Applied Sciences

An Associate in Applied Science (A.A.S.) degree in Nursing and a career as a Registered Nurse are available to students who successfully complete the Associate Degree Nursing (ADN) program. As members of the nursing profession, registered nurses are accountable for their own nursing practice. The Associate Degree Nurse utilizes more complex nursing knowledge and skills to assess, plan, provide, evaluate and manage nursing care for patients in hospitals, long-term care facilities, and a variety of community-based healthcare settings. Upon successful completion of the nursing curriculum, the student is eligible to take the National Council Licensure Exam for Registered Nurse Licensure (NCLEX-RN).

Term	ACCELERATED ASSOCIATE DEGREE NURSING PROGRAM Newton Campus	Course Credit
Entry Requirements (Pre-Nursing)	BIO 168 Anatomy & Physiology I	4
